ArX

# Introducing ArX. Designed to impress, Engineered for Perfection.

ArX, the luxurious espresso coffee machine that redefines the art of coffee making.

Awe-inspiring design blends perfectly with the exceptional performance to create the harmonious notes of hand-crafted barista quality coffee at home and in the office or studio.

Every cup a masterpiece.

ArX

## Lever Group

Take control of every element of the espresso shot with the manual lever system, ensuring the perfect balance of pressure and extraction for rich, full bodied coffee every time.

The classic design of a lever group machine adds impact and sophistication to any setting, blending functionality with a timeless aesthetic appeal.

ArX

## Manual Fill

ArX features manual water fill, utilising the stylish stainless-steel funnel provided, to ensure a convenient and elegant solution that allows the user to add water directly to the boiler.

ArX

## Twin Pressure Gauges

Providing real-time information about the steam pressure levels within ArX and control of the extraction pressure profile operation of the lever group, ensuring that every espresso is extracted under optimum conditions for perfection in flavour and consistency.

ArX

## Citadel – The Inspiration

Two intersecting billets arranged in the form of an 'X' provide a balanced foundation. The design is both a work of art and strikingly functional, distributing weight evenly for perfect stability. The tapered design of ArX ensures a compact use of space and causes the light to reflect with impressive effects.

ArX

## Real Wood – The Experience

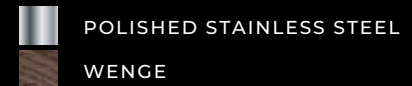

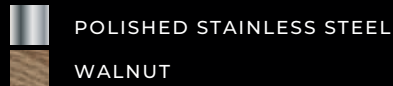

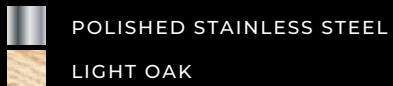

The finest hardwoods are selected for the handles and feet to create an elegant design feature that brings a touch of sophisticated uniqueness to the visual aura of ArX.
