SPECTRA

Introducing SPECTRA, the ultimate fusion of design, craftsmanship and elemental functionality.

SPECTRA – blending harmoniously the concept of minimalist design, premium performance and ultimate control. Engineered to exude perfection, the stunning tridecagon form, in a highly polished stainless steel and contrasting rich colour finish, transforms the art of coffee creation into a masterpiece of flavour and style.

SPECTRA is much more than a coffee machine. It's a statement of intent, passion and refinement – designed for those who appreciate the finer luxuries in life. Transform your day and savour the art of coffee with pedigree.

SPECTRA

Lever Group

Take control of every element of the espresso shot with the manual lever system, ensuring the perfect balance of pressure and extraction for rich, full bodied coffee every time.

The classic design of a lever group machine adds impact and sophistication to any kitchen or studio setting, blending functionality and a timeless aesthetic appeal.

SPECTRA

Manual Fill

SPECTRA features an integral water reservoir that is manually filled, providing a convenient and elegant solution that allows the user to add water directly to the machine without relying on a fixed plumbing connection.

SPECTRA

Twin Pressure Gauges

Providing horological real-time information about the steam pressure levels within SPECTRA and control of the extraction pressure profile operation of the lever group, ensuring that every espresso is extracted under optimum conditions for perfection in flavour and consistency.

SPECTRA

Real Wood Detailing

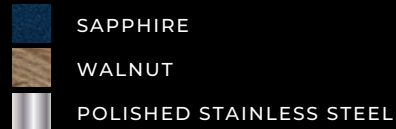

By incorporating real wood into key components, the discerning SPECTRA user is rewarded with style that exudes warmth, craftsmanship and sophistication.

The texture of hand-finished hardwood brings tactile class and elegance to the handles and feet of SPECTRA – adding touches of individuality and a luxurious experience.
